

Let's talk über l'espace – Trilingual Course

This innovative course invites you on a multilingual journey — in English, French, and German — through the fascinating world of space. Whether it's cooperation vs. competition, demographics of the space industry, or sustainability beyond Earth, we tackle thought-provoking topics from a fresh, transdisciplinary angle.

Led by experienced multilingual instructors, the course focuses on developing reading and speaking skills while fostering awareness of how languages intersect. Instead of traditional grammar drills, we highlight linguistic parallels and empower you with effective language learning strategies.

Expect lively discussions, new perspectives, and a deeper understanding of both language and the universe. Sign up now – we look forward to having you!
